1. Project Overview

Project Title: World Marketing Agency (WMZ) IT – Complete Web Solution

Client Organization: World Marketing Agency (WMZ) IT

Client Representative: Maria Hasan

Marketing Head (Discussion Partner): Mustain Billah

Developer / Service Provider: Nazmul Hasan

Development Institute: Shadow Zone

2. Project Description

This project is a **full-featured IT agency management system** developed using the **MERN Stack** (MongoDB, Express.js, React.js, Node.js).

The platform showcases the agency's services, achievements, projects, and client interactions while offering a secure and manageable admin panel.

Main Objectives

- Create a professional online presence for **World Marketing Agency (WMZ) IT**
 - Enable online service booking, client interaction, and review management
 - Provide a centralized admin dashboard for managing all operations
 - Integrate **SMS OTP system** and **mobile verification** for clients
 - Order **status** via Mobile message for client
-

3. Key Features

Frontend Features

- 1. Fully Responsive Design (Mobile, Tablet, Desktop)
- 2. Dynamic Landing Page
- 3. Team Member Portfolio Showcase
- 4. Previous Project Gallery
- 5. Client Review and Message System
- 6. Partner & Achievement Section
- 7. Service Details Pages (Digital Marketing, Video Editing, Web Development)
- 8. Contact & Query Form with SMS Notification
- 9. Booking System
- 10. OTP-based Mobile Verification System

Backend Features (Admin Panel)

- 1. Secure Admin Authentication
- 2. Dashboard Overview (Total Bookings, Reviews, Messages, etc.)
- 3. Manage Services (Add / Edit / Delete)
- 4. Manage Team Members
- 5. Manage Portfolio Projects
- 6. Manage Client Reviews
- 7. Manage Partners & Achievements
- 8. View Contact Messages
- 9. Bulk SMS Integration for Marketing & Notification
- 10. MongoDB Database Integration
- 11. JWT Authentication and Authorization
- 12. CORS & Security Configuration

4. Technology Stack
